Folks, these are very well done. For the sampling transition, I added some language about pre-events conditions and seasonal variability. I can save as final if you all agree, just want to make sure I am not missing something.

I also made some minor edits to Public Affairs plan, and need your help to define a couple of acronyms.

I find a typo on the site visit plan, I believe it got it fixed.

Thanks again. Just let me know, if you want me to finalize and send out or you want to do. We should get out by 9:30 or 10 am EST for the now noon meeting tomorrow. Thanks again.
